Definition of Terms

CPI is the percent change in the average prices of goods and services commonly bought by a group of households from the base period.

Base Period is the period, usually a year, at which the index number is set to 100. It is the reference period of the index number series. The CPI uses year 2006 as the base period.

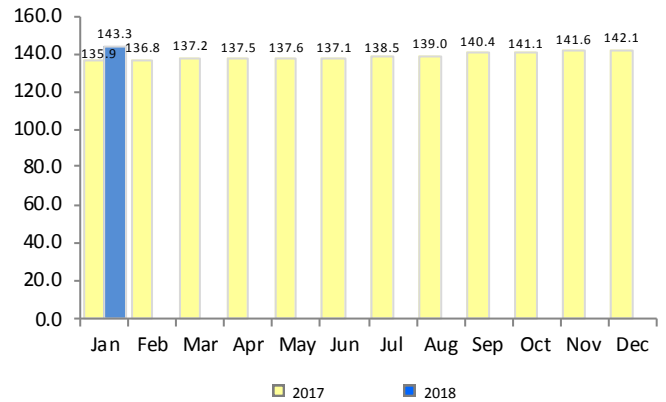

Market Basket refers to a sample of goods and services that are commonly purchased by a group of households in a particular area. The NCR market basket is composed of 693 commodities for the 2006 based CPI.

Inflation Rate is the annual rate of change or the year-to-year change in the CPI.

Purchasing Power of the Peso is the measure of the real value of the peso in a given period relative to a chosen base period.
