SPECIAL RELEASE

POPULATION OF BARANGAY VALENCIA, QUEZON CITY

(Results based from 2015 Census of Population)

Date of Release: June 29, 2020

Reference No. 2020-SR-144 (POII)

The Census of Population, which is a complete enumeration of households in the country, is designed primarily to take an inventory of the population of all barangays in the Philippines as mandated by RA No. 10625 and Executive Order No. 352. It also collects information about some characteristics of the population such as age, sex, marital status, and highest grade completed.

This special release presents data on the population of Barangay Valencia, Quezon City. Figures are based from the tabulated data of the 2015 Census of Population.

Total Population of Barangay Valencia Reaches 8,547

The total population of Barangay Valencia, Quezon City reached 8,547 as of August 1, 2015. This accounts for 0.3 percent of the city's total population.

The household population of Barangay Valencia constituted a sum of 8,529 while the remaining 18 people

belonged to the institutional population or those residing in institutional living quarters such as hotels, hospitals, orphanages, homes for the aged, jails, and military camps.

Table 1. Total Population, Household Population, Institutional Population Brgy. Valencia, Quezon City: 2015

Total Population	8,547
Household Population	8,529
Institutional Population	18

Source: Philippine Statistics Authority, 2015 Census of Population

Of the household population, 4,206 or 49.3 percent were male while 4,323 or 50.7 percent were female. These figures resulted to a sex ratio of 97 males per 100 females.

Persons Aged 25 to 29 Years Comprise the Largest Age Group

The age-sex distribution of the population showed that persons aged 25 to 29 years comprised the largest age group, making up 11.2 percent of the household population. This was followed by those in the age groups 20 to 24 years (10.4 percent) and 15 to 19 years (9.6 percent).

Males outnumbered females in the age groups 0 to 54 years. Females, on the other hand, outnumbered their male counterparts in the older age groups (55 years old and over). Refer to Table 2 for details.

Median Age is 29 Years

In 2015, the median age of the household population of Barangay Valencia was 29. This means that half of the household population was younger than 29 years. This was higher than the median age of Quezon City which was 26 years.

Two in Three of the Household Population are of Voting Age

A total of 6,211 or 72.8 percent of the barangay's household populace belonged to the voting population or those aged 18 years and over. There were more female voters (3,274 or 52.7 percent) than male voters (2,937 or 47.3 percent). *Refer to Table 3 for details.*

Senior Citizens Constitute 7.1 Percent of the Household Population

People who were regarded as senior citizens were those aged 60 years and over. In 2015, senior citizens made up 7.1 percent of the barangay's household population. Among the senior citizens, females (59.3 percent) outnumbered males (40.7 percent). *Refer to Table 2 for details.*

Overall Dependency Ratio Totals 35 Dependents

The overall dependency ratio of Barangay Valencia was 35, which indicates that for every 100 working-age population, there were about 35 dependents (29 young dependents and 6 old dependents). This was lower than the overall dependency ratio of Quezon City which was 44 dependents. *Refer to Table 4 for details.*

Two Elderly for Every Seven Children Below 15 Years

The ageing index or the proportion of persons aged 60 years and over per 100 persons under the age of 15 years in Barangay Valencia registered 33.2 percent. This translates to two persons aged 60 years and over for every seven children under 15 years old.

Never Been Married Persons Tally 45.4 Percent

Of the total household population 10 years old and over, 45.4 percent has never been married while 36.6 percent was married. The rest of the population was categorized as follows: common-law/live-in (6.1 percent), widowed (3.4 percent), divorced/separated (1.2 percent) and unknown (7.3 percent). Among those that has never been married, a higher proportion in males (50.4 percent) than in females (49.6 percent) was recorded. Meanwhile, the proportion of females was higher than males among those who were widowed (83.7 percent), divorced/separated (65.2 percent), common-law/live-in (50.8 percent), married (50.6 percent) and unknown (52.0 percent). Refer to Table 5 for details.

TECHNICAL NOTES

The 2015 Census of Population (POPCEN 2015) was undertaken by the Philippine Statistics Authority (PSA) in August 2015 as mandated by Republic Act No. 10625, otherwise known as the Philippine Statistics Act of 2013. It was the 14th census of population that was undertaken since the first census in 1903. POPCEN 2015 was designed to take an inventory of the total population all over the Philippines and collect information about their characteristics. Census day for the POPCEN 2015 was August 1, 2015 (12:01 a.m.). POPCEN 2015 made use of the de jure concept of enumeration wherein households and persons are enumerated in the area where they usually reside as of the census reference date. Enumeration lasted for about 25 days, from 10 August to 6 September 2015. Enumeration was extended until 15 September 2015 for large provinces and some highly urbanized cities.

Total population	the sum of the household population and institutional population. It also includes Filipinos in Philippine embassies, consulates, and missions abroad
Household population	comprises of persons who belong to a household, the basic criterion of which is the usual place of residence or the place where the person usually resides
Institutional population	the population enumerated in collective or institutional living quarters such as: dormitories/lodging houses, jails/prisons, military camps, convents/seminaries, and mental hospitals
Household	a social unit consisting of a person living alone or a group of persons who sleep in the same housing unit and have a common arrangement in the preparation and consumption of food
Age	the interval of time between a person's date of birth and the census reference date (1 August 2015). Expressed in completed years (as of last birthday), it is recorded in whole number
Median age	the age at which exactly half of the population is younger than this age and the other half is older than it

Overall dependency ratio	the ratio of persons in the dependent ages (under 15 years old and over 64 years old) to persons in the economically active or working ages (15 to 64 years old) in the population
Marital status	the personal status of each individual with reference to the marriage laws or customs of the country
Simple literacy rate	the proportion of persons aged 10 years and over who are able to read and write a simple message in any language or dialect
Highest grade/year completed	the highest grade or year completed in school, college or university
Usual activity/occupation	the kind of job or business, which a person aged 15 years' and over was engaged in most of the time during the 12 months preceding the census
