Explanatory Notes

Data on the number of births (vital events) presented in this release were obtained from the Certificate of Live Birth (Municipal Form No. 102) that were timely and late registered births at the appropriate Office of the City/Municipal Civil Registrars all throughout the country and subsequently submitted for encoding to the Office of the Civil Registrar General through the Provincial Statistical Offices (PSOs) of the Philippine Statistics Authority (PSA). The information presented includes vital events that occurred from January to December 2023 based on data files received by the PSA - Civil Registration Service (CRS) from the PSOs and has undergone initial processing as of 30 April 2024. Thus, the figures presented herein are still provisional and may differ from the final count. The vital events of Filipinos abroad are not yet included in this release, but Filipinos whose usual residence is abroad and foreign nationals with vital events occurring in the country during the reference period.

Vital Statistics are derived from information obtained at the time when the occurrences of vital events and their characteristics are inscribed in a civil register. Vital acts and events are the birth, deaths and marriages, and all such events that have something to do with an individual's entrance and departure from life together with the changes in civil status that may occur to a person during his lifetime. Recording of these events in the civil register is known as vital or civil registration and the resulting documents are vital records.

Counts on Births include individuals who are born in the Philippines whose usual residence is in a foreign country.

Live Birth is a complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of the pregnancy, which after such separation, breathes or shows any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, whether or not the umbilical cord has been cut or placenta is attached; each product of such birth is considered live born.

Usual Residence of Live Births refers to place where the live birth took place.

Daily Average refers to the arithmetic mean of live birth occurrences per day.

Monthly Average refers to the arithmetic mean of live birth occurrences per month.
