# SPECIAL RELEASE

## POPULATION OF BARANGAY PAANG BUNDOK, QUEZON CITY

(Results based from 2015 Census of Population)

**Date of Release: September 28, 2021**

Reference No. 2021-SR-062 (POII)

The Census of Population, which is a complete enumeration of households in the country, is designed primarily to take an inventory of the population of all barangays in the Philippines as mandated by RA No. 10625 and Executive Order No. 352. It also collects information about some characteristics of the population such as age, sex, marital status, and highest grade completed.

This special release presents data on the population of Barangay Paang Bundok, Quezon City. Figures are based from the tabulated data of the 2015 Census of Population.

### Total Population of Barangay Paang Bundok reaches 5,643

The total population of Barangay Paang Bundok, Quezon City reached 5,643 as of August 1, 2015. This accounts for 0.2 percent of the city's total population.

The household population of Barangay Paang Bundok constituted a sum of 5,599 while the remaining 44 people

belonged to the institutional population or those residing in institutional living quarters such as hotels, hospitals, orphanages, homes for the aged, jails, and military camps.

Table 1. Total Population, Household Population, Institutional Population Brgy. Paang Bundok, Quezon City: 2015

Total Population	5,643
Household Population	5,599
Institutional Population	44

*Source: Philippine Statistics Authority, 2015 Census of Population*

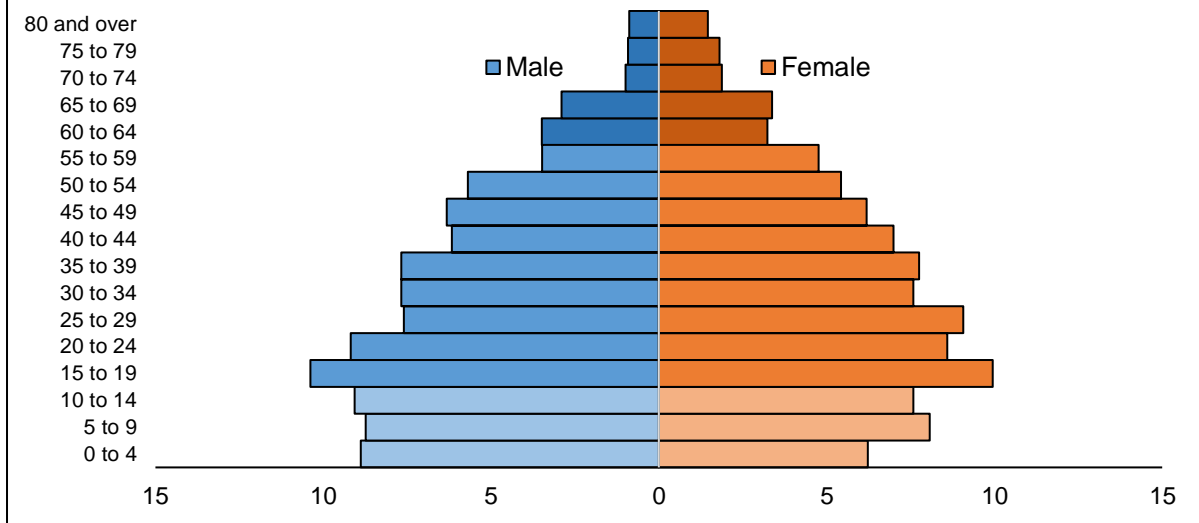

Of the household population, 2,725 or 48.7 percent were male while 2,874 or 51.3 percent were female. These figures resulted to a sex ratio of 95 males per 100 females.

### Persons Aged 15 to 19 Years Comprise the Largest Age Group

The age-sex distribution of the population showed that persons aged 15 to 19 years comprised the largest age group, making up 10.2 percent of the household population. This was followed by those in the age groups 20 to 24 years (8.9 percent) and 5 to 9 years (8.4 percent).

Females outnumbered males in the age groups 0 to 54 years and in the older age groups, 55 years old and over. *Refer to Table 2 for details.*

**Figure 1. Total Household Population by Sex and Age group in Brgy. Paang Bundok, Quezon City: 2015**

Source: Philippine Statistics Authority, 2015 Census of Population

### Median Age is 29 Years

In 2015, the median age of the household population of Barangay Paang Bundok was 29. This means that half of the household population was younger than 29 years. This was higher than the median age of Quezon City which was 26 years.

### Two in Three of the Household Population are of Voting Age

A total of 3,915 or 69.9 percent of the barangay's household populace belonged to the voting population or those aged 18 years and over. There were more female voters (2,092 or 53.4 percent) than male voters (1,823 or 46.6 percent). Refer to Table 3 for details.

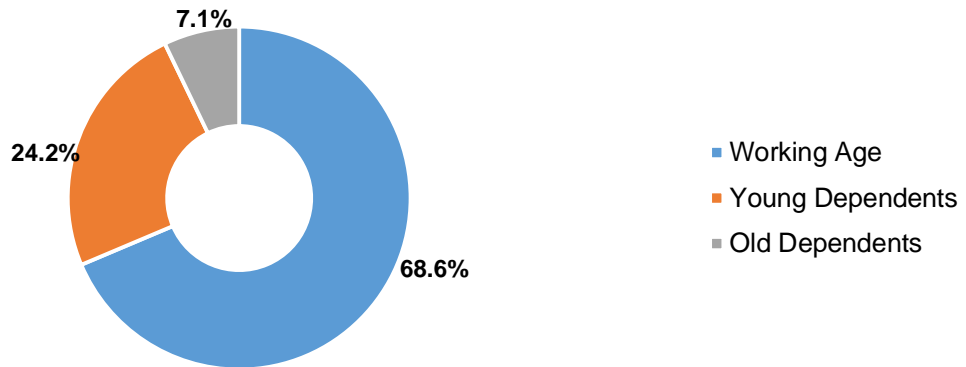

### Senior Citizens Constitute 10.5 Percent of the Household Population

People who were regarded as senior citizens were those aged 60 years and over. In 2015, senior citizens made up 10.5 percent of the barangay's household population. Among the senior citizens, females (57.5 percent) outnumbered males (42.5 percent). Refer to Table 2 for details.

### Overall Dependency Ratio Totals 45 Dependents

The overall dependency ratio of Barangay Paang Bundok was 45, which indicates that for every 100 working-age population, there were about 45 dependents (35 young dependents and 10 old dependents). This was higher than the overall dependency ratio of Quezon City which was 44 dependents. Refer to Table 4 for details.

**Figure 2. Total Household Population by Dependency Ratio in Brgy Paang Bundok, Quezon City: 2015**

 Note: Details may not add up to total due to rounding

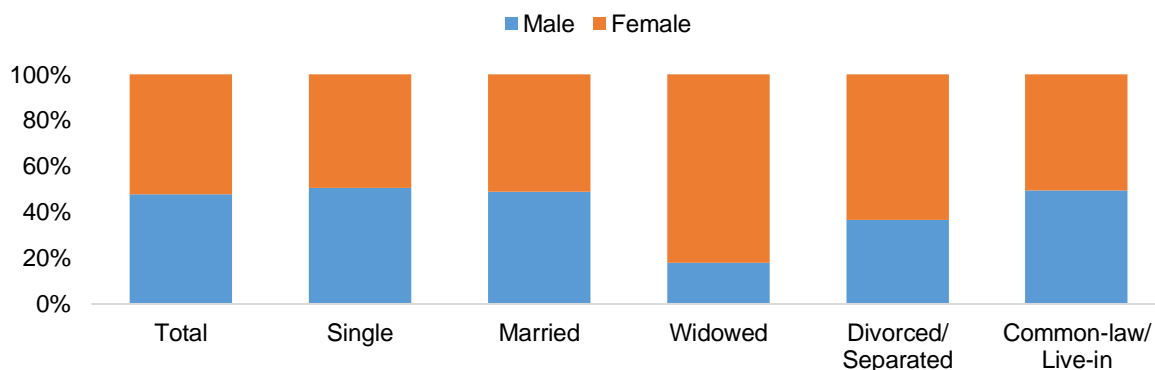

### Three Elderly for Every Seven Children Below 15 Years

The ageing index or the proportion of persons aged 60 years and over per 100 persons under the age of 15 years in Barangay Paang Bundok registered 43.4 percent. This translates to three persons aged 60 years and over for every seven children under 15 years old.

### Never Been Married Persons Tally 45.9 Percent

Of the total household population 10 years old and over, 45.9 percent has never been married while 35.6 percent was married. The rest of the population was categorized as follows: common-law/live-in (10.1 percent), widowed (5.1 percent) and divorced/separated (3.3 percent). Among those who have never been married, a higher proportion in males (50.6 percent) than in females (49.4 percent) was recorded. Meanwhile, the proportion of females was higher than males among those who were widowed (82.1 percent), divorced/separated (63.5 percent), married (51.2 percent) and common-law/live-in (50.6 percent). Refer to Table 5 for details.

## TECHNICAL NOTES

The 2015 Census of Population (POPCEN 2015) was undertaken by the Philippine Statistics Authority (PSA) in August 2015 as mandated by Republic Act No. 10625, otherwise known as the Philippine Statistics Act of 2013. It was the 14th census of population that was undertaken since the first census in 1903. POPCEN 2015 was designed to take an inventory of the total population all over the Philippines and collect information about their characteristics. Census day for the POPCEN 2015 was August 1, 2015 (12:01 a.m.). POPCEN 2015 made use of the de jure concept of enumeration wherein households and persons are enumerated in the area where they usually reside as of the census reference date. Enumeration lasted for about 25 days, from 10 August to 6 September 2015. Enumeration was extended until 15 September 2015 for large provinces and some highly urbanized cities.

Total population	the sum of the household population and institutional population. It also includes Filipinos in Philippine embassies, consulates, and missions abroad
Household population	comprises of persons who belong to a household, the basic criterion of which is the usual place of residence or the place where the person usually resides
Institutional population	the population enumerated in collective or institutional living quarters such as: dormitories/lodging houses, jails/prisons, military camps, convents/seminaries, and mental hospitals
Household	a social unit consisting of a person living alone or a group of persons who sleep in the same housing unit and have a common arrangement in the preparation and consumption of food
Age	the interval of time between a person's date of birth and the census reference date (1 August 2015). Expressed in completed years (as of last birthday), it is recorded in whole number
Median age	the age at which exactly half of the population is younger than this age and the other half is older than it
Overall dependency ratio	the ratio of persons in the dependent ages (under 15 years old and over 64 years old) to persons in the economically active or working ages (15 to 64 years old) in the population

Marital status                      the personal status of each individual with reference to the marriage laws or customs of the country

Simple literacy rate                the proportion of persons aged 10 years and over who are able to read and write a simple message in any language or dialect

Highest grade / year completed    the highest grade or year completed in school, college or university

Usual activity / occupation        the kind of job or business, which a person aged 15 years and over was engaged in most of the time during the 12 months preceding the census
