City of Makati, 12 September 2022 – During the meeting, CSS Basilio congratulated Mayor Abby on her new term in office and introduced PSA's Birth Registration Assistance Project, its process, and benefits such as late registration of birth certificate for Makatizens for free. Mayor Abby cited that the current activity of the city "Makati Lingkod Bayan Caravan" which visits barangays in the city to render services such as health, as well as social services that include processing for city-funded benefits is a great venue for the project. The caravan brings local government services to residents who are unable to come to city hall for transactions. PSA NCR PSO III have been part of the Caravan since it was launched in 2016. She expressed her support for the project and ensured that the City of Makati will always be supportive to PSA's activities.
