## VITAL STATISTICS ON REGISTERED LIVE BIRTHS: FIRST QUARTER 2022, CITY OF PASIG

**Date of Release:** 28 September 2022

Reference No. 2022-0034

### EXPLANATORY NOTE

*The data on the number of births presented herein was obtained from the statistical reports released last 15 September 2022 from the Philippine Statistics Authority (PSA) official website (<https://psa.gov.ph/vital-statistics/id/168146>). The information includes the vital events that occurred from January to May 2022 based on data files received by the PSA - Civil Registration Service (CRS) from the PSOs as of 30 June 2022. Thus, the figures presented herein are still preliminary and may differ from the final count. The vital events of Filipinos abroad are not yet included in this release, but Filipinos whose usual residence is abroad and foreign nationals with vital events occurring in the country during the reference period were included in this report.*

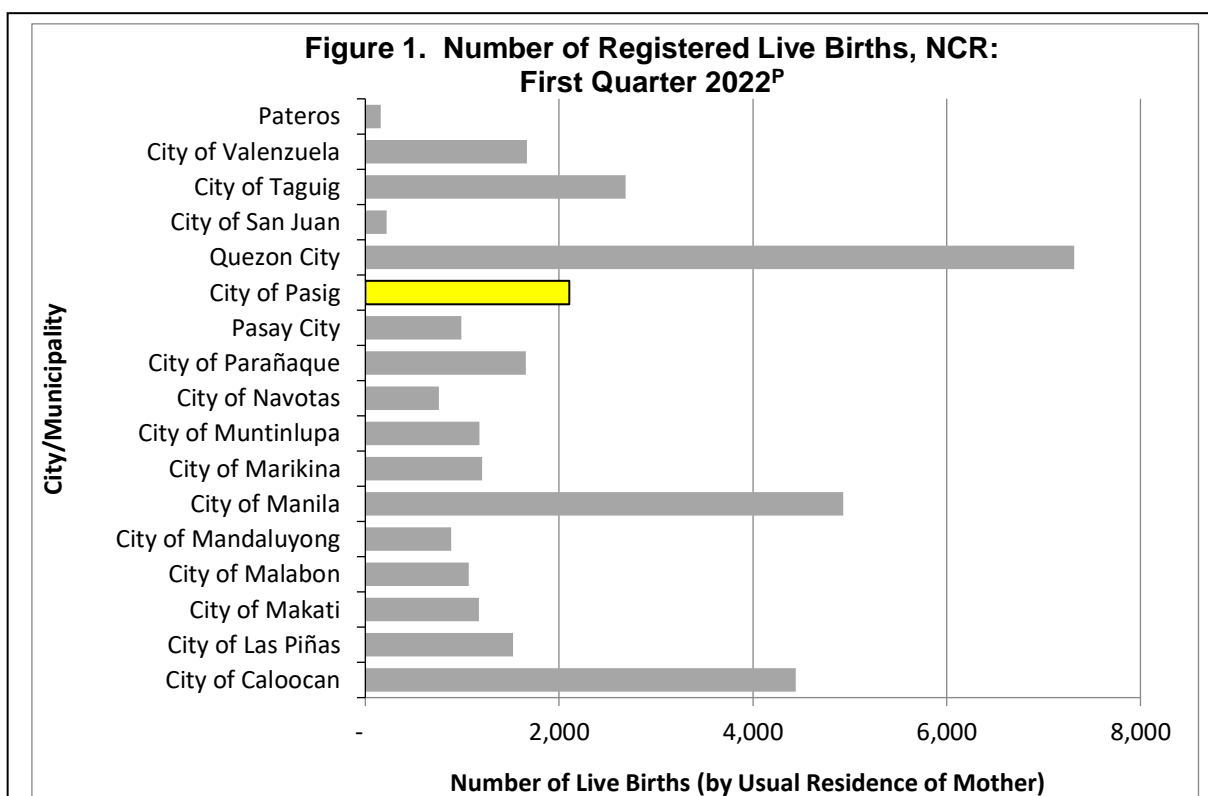

Based from the preliminary data as of 15 September 2022, the total number of registered live births in the National Capital Region for the first quarter of 2022 reached 33,977 or 11.94% share from the total live births in the country. The City of Pasig recorded 2,105 live births from January to March 2022 with 6.20% share from the total number of live births in the National Capital Region (NCR).

## TECHNICAL NOTES

**Vital Statistics** are derived from information obtained at the time when the occurrences of vital events and their characteristics are inscribed in a civil register. Vital acts and events are the birth, deaths and marriages, and all such events that have something to do with an individual's entrance and departure from life together with the changes in civil status that may occur to a person during his lifetime. Recording of these events in the civil register is known as vital or civil registration and the resulting documents are vital records.

**Counts on Births** include babies born in the Philippines whose mother's usual residence is in a foreign country.

**Live Birth** is a complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of the pregnancy, which after such separation, breathes or shows any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite improvement voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached, each product of such a birth is considered live born.
