

SPECIAL RELEASE

PRIVATE BUILDING CONSTRUCTION STATISTICS

City of Pasig: Third Quarter 2019

Date of Release: March 29, 2023

Reference No. 2023-0005

This Special Release presents data on construction statistics from approved building permits for the National Capital Region (NCR) Provincial Statistical Office III - City of Pasig for the Third Quarter of 2019. Figures are based on the preliminary results of the tabulated data from collected building permits.

Number of approved building permits decreases by 43.0 percent

The number of approved building permits in the City of Pasig decreased by 43.0 percent to 155 during the third quarter of 2019 from 272 of the same quarter of the previous year. Likewise, the total value of construction decreased by 1.5 percent to ₱7.02 billion during the third quarter of 2019 from ₱7.13 billion of the same quarter of 2018.

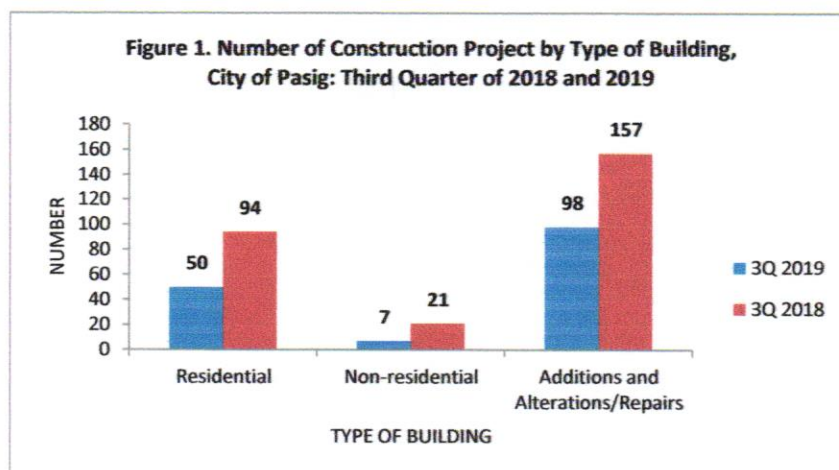

Relative to the entire region, the City of Pasig contributed 4.6 percent to the number of approved building permits and 17.5 percent to the total value of construction during the third quarter of 2019. See Table 1 for details.

Number of approved building permits for residential and non-residential type of building decreases

The number of residential types of building decreased by 46.8 percent to 50 during the third quarter of 2019 from 94 during the same period of the previous year. The number of non-residential types of building also decreased by 66.7 percent to seven during the third quarter of 2019 from 21 during the third quarter of 2018.

Also, combined approved building permits for additions and alterations/repairs went down by 37.6 percent to 98 building permits during the third quarter of 2019 from 157 of the same quarter of the previous year.

Figure 1 compares the number of approved building permits by type of building for the City of Pasig during the third quarter of 2018 and 2019. Refer to Table 2 for details.

Value of construction for residential type of building goes down

The aggregate value of construction for residential type of building in the City of Pasig decreased by 9.6 percent to ₱6.13 billion in the third quarter of 2019 from ₱6.78 billion during the same quarter of the previous year. However, the value of construction for non-residential type of building went up by 549.2 percent to ₱0.74 billion in the third quarter of 2019 from ₱0.11 billion in the same quarter of 2018. The total value for additions and alterations/repairs decreased by 32.6 percent to ₱0.16 billion in the third quarter of 2019 from ₱0.24 billion during the same quarter of 2018.

Figure 2 presents the value of construction by type of building for the City of Pasig for the third quarter of 2018 and 2019. Refer to Table 2 for details.

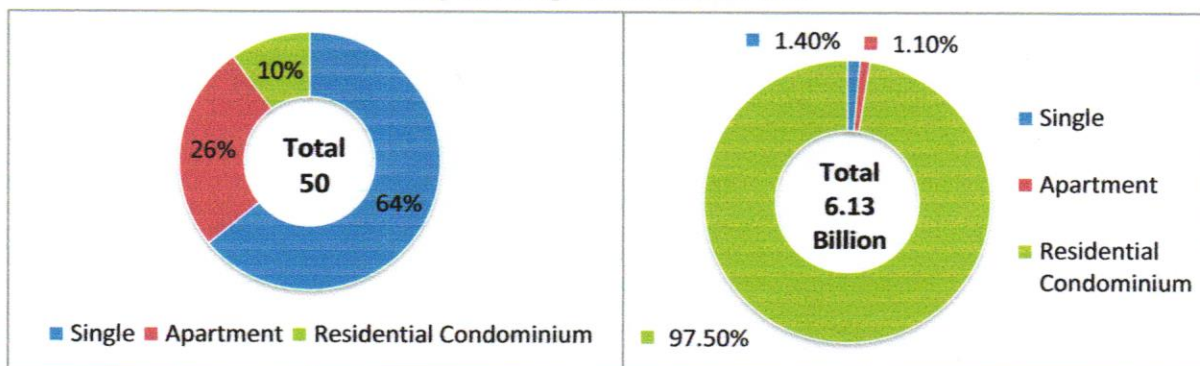

Source: Private Construction Statistics, Industry Statistics Division, PSA

Single residential units record the highest number of approved building permits and residential condominium register the highest value of construction

Among the types of residential building in the third quarter of 2019, single residential units registered the highest number of approved building permits with 32 applications or 64.0 percent while residential condominium type of building recorded the highest value of construction amounting to ₱6.0 billion or 97.5 percent of the total value of residential building construction.

Figure 3 presents the percentage distribution of the number and value of residential construction by type in the City of Pasig during the third quarter of 2019. Refer to table 2 for details.

Figure 3. Number and Value of Residential Building Construction by Type, City of Pasig: Third Quarter 2019

Source: Private Construction Statistics, Industry Statistics Division, PSA

Commercial type of building is the only recorded building among non-residential building construction

Among the types of non-residential building, the commercial type recorded the only building with 7 applications and an aggregate value of ₱0.74 billion in the third quarter of 2019.

Explanatory Notes

Scope and Coverage

Private construction statistics from approved building permits relate to new constructions and additions, alterations and repairs of existing residential and non-residential buildings and other structures undertaken in all regions/provinces of the country.

Source of Information

Data are from the original applications of approved building permits collected by PSA-NCR Provincial Statistical Office III field personnel from Local Building Officials in the City of Pasig.

Limitations:

1. Data on building constructions refer to those approved applications during the reference period and not to construction work completed during the reference period.
2. The completeness of the number of building permits collected relies on the approval of applications filed with the LBOs. Hence, private building constructions without approved building permits are excluded in the tabulation of data.

Definition of Terms:

Building Permit - A written authorization granted by the Local Building Official (LBO) to an applicant allowing him to proceed with the construction of a specific project after plans, specifications and other pertinent documents have been found to be in conformity with the National Building Code (PD 1096).

Building - Any independent, freestanding structure comprised of one or more rooms or other spaces, covered by a roof and enclosed with external walls or dividing walls, which extend from the foundation to the roof.

Construction - All on-site work done from site preparation, excavation, foundation, assembly of all the components and installation of utilities and equipment of buildings/structures.

Residential Building - A building for which its major parts or more than half of its gross floor area built for dwelling purposes. This type of building can be of the single type, duplex, an apartment and/or accessoria and residential condominium.

Single House - A complete structure intended for a single family or household, i.e. bungalow, 2-storey house, nipa hut.

Duplex - A structure intended for two households, with complete living facilities for each; it is a single structure divided into two dwelling units by a wall extending from the floor to the ceiling.

Apartment - A structure, usually of two storeys, made up of independent living quarters, with independent entrances from internal walls and courts.

Accessoria—Is a one or two-floor structure divided into several dwelling units, each dwelling unit having its own separate entrance from the outside.

Residential Condominium - A structure, usually of several storeys, consisting of multiple dwelling units.

Other residential constructions - Consist of school or company staff houses, living quarters for drivers and maids, and guardhouses.

Non-Residential Building - This type includes commercial, industrial, agricultural and institutional buildings.

Commercial Buildings - Office buildings and all buildings that are intended for use primarily in wholesale, retail and service trades; i.e. stores, hotels, restaurants, banks, etc.

Industrial Buildings - Buildings which are used to house the production, assembly and warehousing activities of industrial establishments; i.e. factories, plants, mills, repair shops, machine shops, printing press, storage plant, electric generating plants

Institutional Buildings - Buildings that are primarily engaged in providing educational instructions and hospital/health care; ports, airports and other government buildings; i.e. school, museums, libraries, sanitaria, churches, hospitals.

Agricultural Buildings - Buildings which are used to house live stocks, plants and agricultural products such as barn, poultry house, piggeries, stables, greenhouses and grain mill.

Other Non-Buildings Constructions - These include cemetery structures, street furniture, waiting sheds, communication towers, etc.

Addition - Any new construction that increases the height or area of an existing building/structure.

Alteration - Construction in a building/structure involving changes in the materials used, partitioning, location/size of openings, structural parts, existing utilities and equipment but does not increase the overall area thereof.

Repair - A remedial work done on any damaged or deteriorated portion/s of a building/structure to restore its original condition.

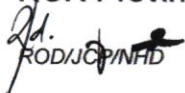

Floor Area of Building - The sum of the area of each floor of the building measured to the outer surface of the outer walls including the area of lobbies, cellars, elevator shafts and all communal spaces in multi-dwellings. Areas of balconies are excluded.

Total Value of Construction - The sum of the cost of building, electrical, mechanical, plumbing, and others. The value is derived from the approved building permit and represents the estimated value of the building or structure when completed.
