

SPECIAL RELEASE

VITAL STATISTICS, CITY OF MANDALUYONG: 2021 SECOND QUARTER (PRELIMINARY)

Date of Release: 30 June 2022
Reference No. 2022 – 019

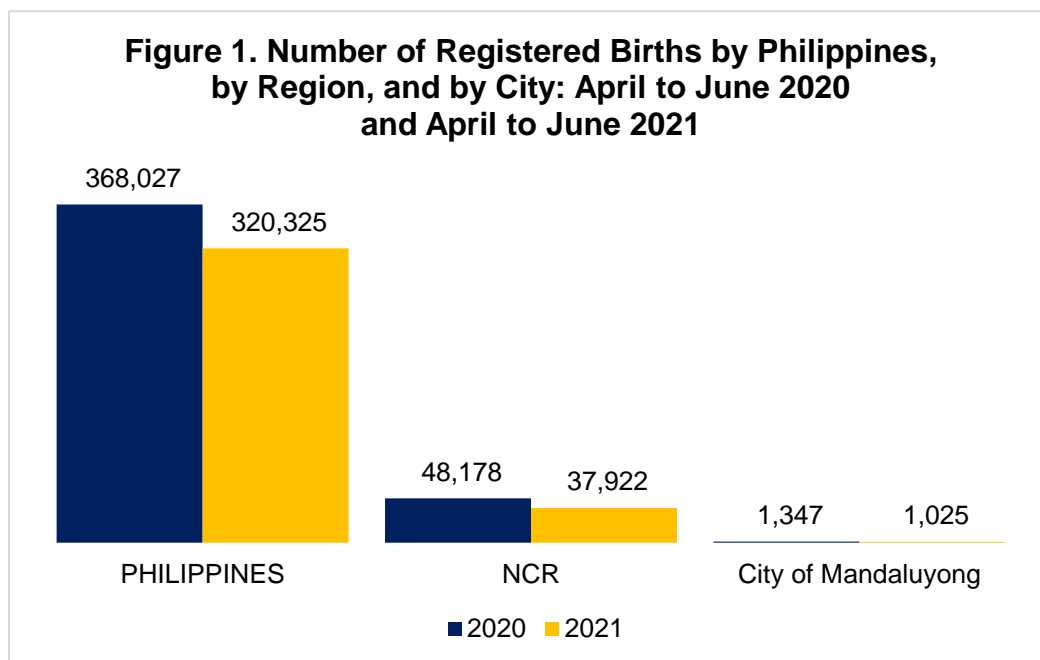

EXPLANATORY NOTE

The data on the number of births, marriages, and deaths (vital events) presented in this release were obtained from the vital events registered, either timely or belatedly, at the appropriate Office of the City/Municipal Civil Registrar of the City of Mandaluyong and forwarded to the Philippine Statistics Authority. The information presented includes the vital events that occurred from the period of April to June 2020 and 2021 (as of 28 February 2022). Thus, the figures presented herein are still preliminary and may differ from the final count. The vital events of Filipinos abroad are not yet included in this release, but Filipinos whose usual residence is abroad and foreign nationals with vital events occurring in the country during the reference period were included in this report.

SECOND QUARTER OF 2021 BIRTHS

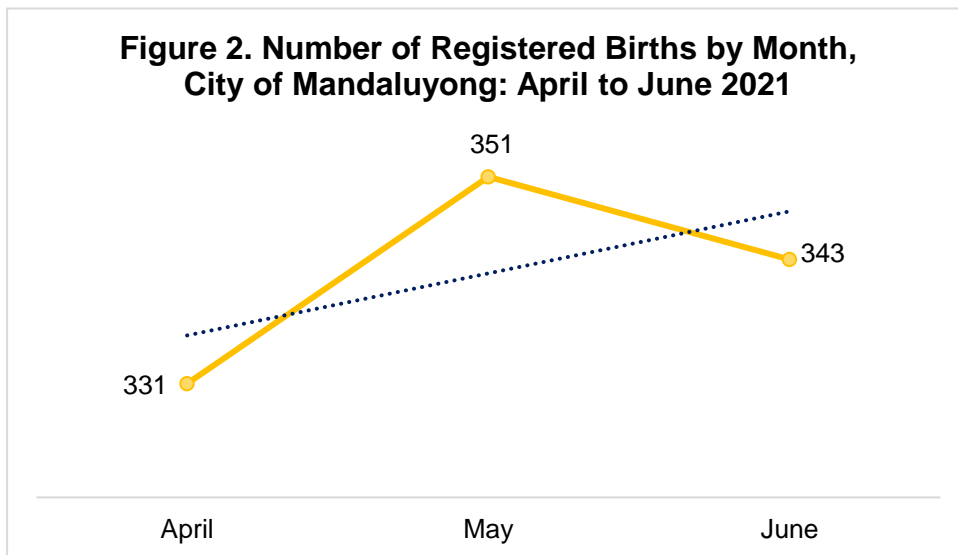

A total of 320,325 live births were registered in the Philippines for the second quarter of 2021. Among these births, 37,922 (11.8%) were from the National Capital Region (NCR). Meanwhile, 1,025 birth occurrences were recorded in the City of Mandaluyong which was 322 or 23.9 percent lower than the same quarter of the previous year with 1,347. (See Figure 1 and Table 4)

Figure 1. Number of Registered Births by Philippines, by Region, and by City: April to June 2020 and April to June 2021

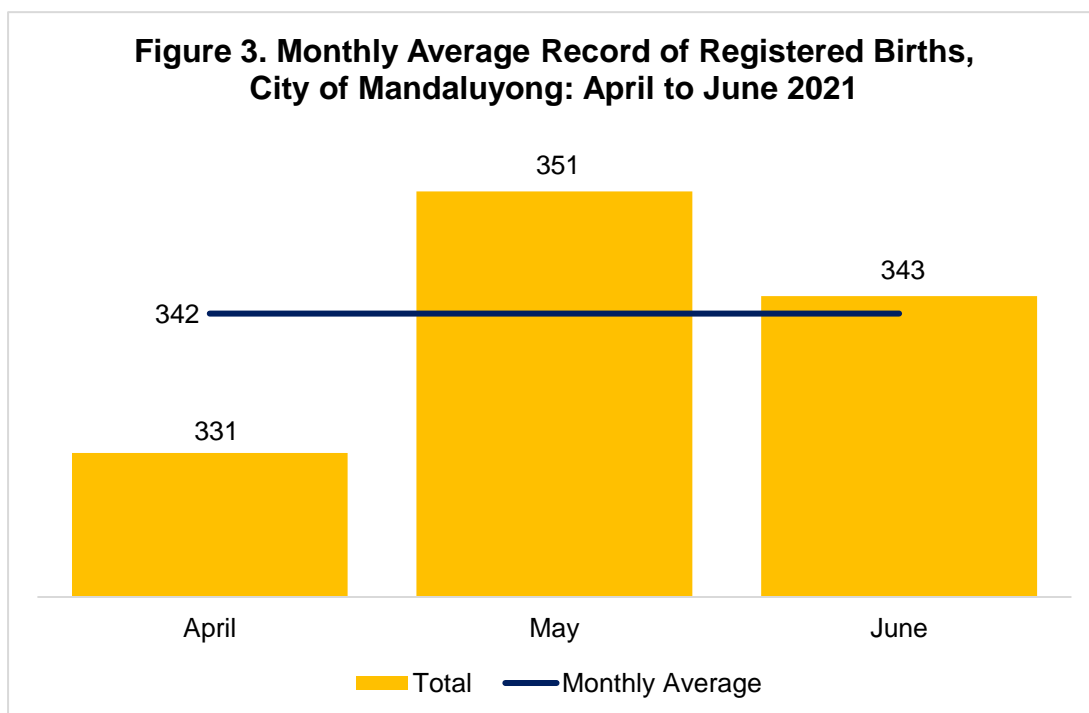

Source: Philippine Statistics Authority, Vital Statistics Division

In this quarter, the majority of registered births occurred in the month of May, which accounted for 351 birth occurrences or 34.2 percent of the total registered births. This was followed by June with 343 (33.5%) and April with 331 (32.3%). (See Figure 2 and Table 5)

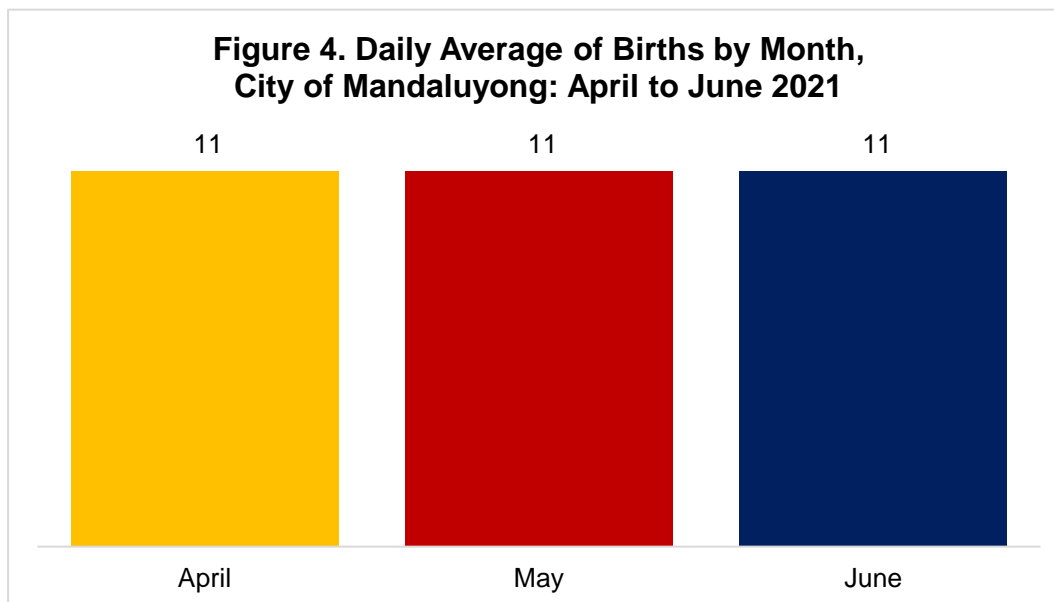

Source: Philippine Statistics Authority, Vital Statistics Division

Furthermore, the monthly average of registered live births for the second quarter reached 342, wherein May and June are higher at 2.7 percent and 0.4 percent, respectively. Meanwhile, April was recorded 3.1 percent lower than the monthly average record. (See Figure 3 and Table 6)

Source: Philippine Statistics Authority, Vital Statistics Division

On the other hand, for this quarter, the months of April, May, and June registered with the same daily average of birth occurrences with 11 births. (See Figure 4 and Table 7)

Source: Philippine Statistics Authority, Vital Statistics Division

Overall, about 11 babies were born every day in the City of Mandaluyong for the second quarter of 2021. (See Table 1)
