## **F O R E W O R D**

The 2020 Regional Social and Economic Trends (RSET) for National Capital Region (NCR) is the fifth edition released by the Philippine Statistics Authority, through its Regional Statistical Services Office (RSSO), which presents the major socioeconomic developments at the regional and sub-regional levels. The first edition was published and launched in 2016 at the 27<sup>th</sup> National Statistics Month.

This edition includes more statistics and figures that are useful in local government planning, decision-making, and setting of policies, as well as formulation and implementation of programs and projects towards effective governance and public service delivery at the local level. Moreover, this publication is designed to provide local business entrepreneurs and other investors with data useful in making marketing plans, decisions and strategies.

We thankfully acknowledge the significant contributors of the 2020 RSET, our data providers. This would not have been made possible without their collaboration and continuous support on producing and delivering relevant and quality statistics to the people.

For the improvement of the quality of our statistics, we encourage our clienteles to give us feedbacks, comments or suggestions not only the RSET publication, but also all the other publications of the PSA.

## REGIONAL OVERVIEW

The National Capital Region, also known as the Metropolitan Manila, is considered as the country's focal region, as it is the place of the Philippine's capital, the City of Manila. The region is divided into 4 districts that consists of 16 cities, and one municipality, and comprised of 1,710 barangays as of June 30, 2020 based on the Philippine Standard Geographic Code. NCR is considered as the main hub of the country as the three central offices of the main branches of the government are located within the region. With its strategic site, the region is accessible to land, rail, water and air transportation.

The region's population count as of 2015 was 12,877,253 with an average annual population growth rate of 1.7 percent during the 2000-2015 period which makes the region density to 337 persons per square kilometer. In 2030, the region's population is projected to reach 14.5 million<sup>1</sup>.

In terms of economy at constant 2000 prices for the year 2018, NCR contributes 36.0 percent of the national GDP. In contrast, its output is dominantly produced by the services sector with more than four-fifths or 82.9 percent of the total Gross Regional Domestic Product followed by the industry sector and agriculture and fishing sector with only 17.0% and 0.2 percent respectively.
